Subject:Orthoxylene into India: Offer from Tricon

Mark

To the Chennai berth, the cargo has to come without PX.

My guess will be that OX will remain at 1370-1380 level in Feb and March.

Thus buying at 1420 is OK.

Try negotiation at 1400.

Shipment in Feb beginning possible?

Please let us know after you talk.

Please take a 24 hour window to revert to him.

All the best.
